

# Georgia Crop Improvement Association Organic Certification Program

## Crops Materials Input Inventory

**Instructions:** List all crop input materials used for soil fertility, crop nutrient, weed, pest and disease control in the table below. Indicate that it is an allowable material by checking the appropriate box. **PLEASE NOTE: All documents submitted must be typed. Hand written documents will not be accepted.**

**BUSINESS NAME:** \_\_\_\_\_ **OWNER NAME:** \_\_\_\_\_ **DATE:** \_\_\_\_\_

Management Material	Brand Name or Source	Intended Use (pest control, fertilizer, etc.)	Restricted? Yes / No	Verification			National List? Yes / No 205.601
				WSDA Listed	PCO Listed	OMRI Listed	

If restricted materials used, describe use restrictions the applicant will follow. Attach additional supporting documents as needed. \_\_\_\_\_

By signing, I attest that I understand the applicable use restrictions to any inputs listed as restricted.

\_\_\_\_\_ Signature

\_\_\_\_\_ Date

If micronutrients are applied, provide annual soil test reports which justify such use per 205.601(J)7 & 205.601(I)1-11.  
 Include certificates for all inputs (OMRI, WSDA, PCO).  
 Include labels for all materials found on the National List.
