

**GCIA certified turfgrass  
ensures producers,  
turf professionals  
and homeowners  
will receive  
high quality sod  
which is free of  
noxious weeds and is  
true to type.**

**Five reasons for planting GCIA Certified Turfgrass:**

- ① Inspected for varietal purity and absence of other turf species.
- ② No noxious weeds observed in mature sod
- ③ Grown under rigorous specifications and field inspected by trained professionals
- ④ The highest quality sod available for landscapes, athletic fields and golf courses
- ⑤ Nationally recognized standard of excellence in the industry
